# Tripoli Mobile Portable Power Installation

## Overview

---

Who owns Tripoli west power plant?

General Electricity Company of Libya (GECOL) is the owner and developer of the 671MW Tripoli West simple-cycle power plant. Image courtesy of General Electricity Company of Libya. General Electricity Company of Libya (GECOL) is the owner and developer of the 671MW Tripoli West simple-cycle power plant. Image courtesy of Siemens.

What is the Tripoli west project?

The Tripoli West project is a 671MW simple-cycle power plant (SCPP) under construction in the Tripoli district of Libya. State-owned General Electricity Company of Libya (GECOL) is the owner and developer of the project. The main construction work on the project was started with the pouring of the first structural concrete in June 2021.

Who builds Tripoli west simple-cycle power plant in Libya?

Enka is the engineering, procurement and construction (EPC) contractor for the Tripoli West simple-cycle power project in Libya. Image courtesy of ENKA. General Electricity Company of Libya (GECOL) is the owner and developer of the 671MW Tripoli West simple-cycle power plant. Image courtesy of General Electricity Company of Libya.

Who owns Tripoli west SCPP?

State-owned General Electricity Company of Libya (GECOL) is the owner and developer of the project. The main construction work on the project was started with the pouring of the first structural concrete in June 2021. Scheduled for commissioning by August 2022, the Tripoli West SCPP will help to meet Libya's acute power generation deficit.

How will Tripoli west power a simple-cycle facility?

The Tripoli West simple-cycle facility will comprise a power island equipped

with four sets of Siemens SGT5 PAC 2000E gas turbines and SGen5-100A air-cooled generators. Each unit will have a rated power of 187MW. The turbines will operate on light distillate oil (LDO) as the primary fuel, while natural gas will be used as the secondary fuel.

How do Mopo batteries work?

Our solar power stations distribute energy through proprietary MOPO Batteries managed by a network of local agents. The 50Wh MOPO50 Battery provides low-income households with basic energy access for lighting, phone charging and Direct Current (DC) appliances. The 1kWh MOPOMax provides a pay-per-use service that replaces petrol generators.
