

## SolarInvert Energy Solutions

# Tunisia mobile power box

## Overview

---

Do I need a power adapter in Tunisia?

If your devices are compatible with these specifications, you will not need a power adapter. However, if your devices use a different plug type or are not compatible with the voltage in Tunisia, you will need a power adapter and/or a voltage converter/transformer.

How does a travel adapter work in Tunisia?

This travel adapter is designed to power multiple devices simultaneously, thanks to its multiple USB ports and a standard socket. This makes it perfect for charging your phone, laptop, tablet, camera, and more, ensuring all your essential electronics are ready for use in Tunisia and beyond.

What type of plug does Tunisia use?

Tunisia uses two different plug types: C and E. Plug type C is the standard European plug with two round pins. Plug type E is similar to type C but with two additional earth clips on the side. While both types are used, type C is more common. The standard voltage in Tunisia is 230 volts and the frequency is 50 Hz.

Do I need a power converter in Tunisia?

Therefore, whether or not you need a power converter in Tunisia depends on the voltage and frequency requirements of your electronic devices. If your electronic devices are designed to operate on 230 volts and 50 Hz, then you will not need a power converter.

What is the electricity supply in Tunisia?

In Tunisia, the electricity supply is 230 volts. (that's the same as is used in Europe). It's VERY different to the United States, which is 120 volts. The voltage in Tunisia is the same as in the UK, and Central Europe, 230 Volts. Australia uses 220-240 volts and New Zealand uses 230-240 volts.

What voltage is used in Tunisia?

It's VERY different to the United States, which is 120 volts. The voltage in Tunisia is the same as in the UK, and Central Europe, 230 Volts. Australia uses 220-240 volts and New Zealand uses 230-240 volts. Our devices are either UK or US devices and are ALL dual voltage.
