Ubnt uninterruptible power supply

Overview

What is an uninterruptible power supply (UPS)?

An uninterruptible power supply (UPS), with a 1kVA/600W capacity and line interactive design, provides battery backup for computers, servers, and office networks. It has a 220V/120V AC output voltage and is brand new, high quality, and inexpensive.

Why is the USP cable not connected?

The USP cable is not connected or is not fully inserted. The USP cable is connected, but the RPS has not successfully negotiated with the attached device. This may indicate that the attached device is not fully booted. The RPS is ready to provide backup power to the connected device. The RPS is currently delivering backup power.

What is a USW mission critical battery?

The Mission Critical (USW Mission Critical) features an integrated 368Wh lithium-ion battery making it an excellent option for providing power redundancy to UniFi Door Access or other key PoE devices. It has (4) GbE PoE++ and (4) GbE PoE+ RJ45 ports and supports 120W of PoE availability.
